

Halyna Malko

Manual QA Trainee

S U M M A R Y

I have a solid understanding of software testing theory and the full STLC process. I can analyze requirements for gaps and create clear test cases, checklists, and bug reports. I am familiar with different testing types, including Functional, Regression, Smoke, and UI/UX testing. My experience in content development has taught me to be meticulous, pay close attention to detail, and always meet strict deadlines.

E X P E R I E N C E

Instructional Content Developer

IT Company | Flex Reality
May 2024 – January 2026

Role: Developing complete sets of learning materials for the AR Book project.

Key achievement: Successfully developed and delivered over 300 comprehensive lesson packages to date.

Responsibilities:

Full development of lesson packages, including lesson descriptions, detailed lesson notes, and presentation slides.

Created testing materials for each lesson, such as quizzes, homework assignments, and control testing materials.

Designed and implemented interactive learning games using Wordwall and LearningApps.

Filled and enriched digital textbooks with various types of interactive content.

Maintained a strict focus on content accuracy and consistency, ensuring the final product meets educational standards.

Consistently completed all assigned tasks within defined deadlines, demonstrating high organizational skills and responsibility.
